

## Celebrating Unity in Diversity in Nigeria

### PRESS RELEASE

7 June 2021

At a time when it seems there is more insecurity than hope, we used the occasion of the Children's Day to celebrate Unity in Diversity in Nigeria.

Nigeria is made up of people from many different backgrounds and cultural heritage and so we had children from diverse cultures showcasing different styles, languages, and talents.

It was a day that the community will not forget so soon. We do hope in the nearest future, to expand this kind of programme to more communities across Nigeria and Africa as a whole.

It was indeed Unity in Diversity!
