

Global Shipment Begins

Monday 25th May 2009

The practical commencement of projects Noah's Ark and Global/ Local Villages at Eltham & Vermont Schools in Melbourne, Victoria (Australia), starts Global Shipment - a huge and unique humanitarian endeavour.

Through the project, Global Dialogue Foundation aims contributing to modernizing countries in the 3rd world - bringing spirit of positive change & progress for all, back on this planet.

Global Shipment connects the minds, hearts & souls of many noble beings around the planet, who through their individual activities, initiatives and projects and in their own unique style and method are helping friends in need. The art of each person's creativity in collaboration through Global Shipment, is a masterpiece of us all.

In this context, it is our pleasure and honor to announce the start of this important project. We extend our thanks and appreciation to all involved - beginning with the Principals, Teachers and the students at both named schools, to APL for donating the containers and subsidising shipping costs, to the organisations and staff associated, to Bumblebee Enterprises, and also to the Global Dialogue Foundation Coordinative Board of Directors.

We'd like to thank and send our best wishes and regards to our friends who are far away from us, and are involved in this project in various ways. Thank you for helping this project, help the dream of many become a reality for a better & safer future for all.

Thank-you & May God bless You all.

Sincerely,
Dr. Vasko M. Najdovski
Founder - Global Dialogue Foundation
