

Enabling the Success of the Post-2015 Agenda

Unity in Diversity - World Civil Society Workshop @ The 65th UN NGO/DPI Conference 27 - 29 August 2014 - New York

24 August 2014

Consolidating Civil Society

Most NGO's are interested in cooperation: The Unity in Diversity campaign seeks to align NGO's working within communities worldwide to learn from and build upon each others contributions, missions, and vision.

Together with partners CO-HABITER, Friendship Ambassadors Foundation, Global Sustainable Development Foundation, Enviro Global Solutions, and supported by Unity in Diversity - World Civil Society initiative bodies, Global Dialogue Foundation will present a workshop at the UN NGO DPI conference next week which will focus on achieving commonality of mission that must exist in the post-2015 agenda.

Unity in Diversity aims to bring all civil society together on one major platform and coordinate its cooperation at local, regional and global levels. In doing so, contribute to eradicating poverty, improving living conditions and establishing intercultural, inclusive and sustainable societies for all on the planet.
