

Bishops Press Obama for Immigration Reform

Pledge to Aid in "Pressing Humanitarian Issue"

SAN ANTONIO, Texas, JUNE 19, 2009 (Zenit.org).- The U.S. bishops' conference president is calling on President Barack Obama to work with Congress for comprehensive immigration reform by the end of 2009, and is promising to help.

Cardinal Francis George, archbishop of Chicago, stated this Thursday in San Antonio at the biannual meeting of the conference.

On behalf of the bishops, he said, "I would ask President Barack Obama and congressional leaders of both parties to work together to fashion and enact comprehensive immigration reform legislation before the end of the year."

The cardinal stated: "We urge respect and observance of all just laws, and we do not approve or encourage the illegal entry of anyone into our country.

"From a humanitarian perspective, however, our fellow human beings, who migrate to support their families, continue to suffer at the hands of immigration policies that separate them from family members and drive them into remote parts of the American desert, sometimes to their deaths.

"This suffering should not continue."

"Now is the time," Cardinal George asserted, "to address this pressing humanitarian issue which affects so many lives and undermines basic human dignity."

He added, "Our society should no longer tolerate a status quo that perpetuates a permanent underclass of persons and benefits from their labor without offering them legal protections."

"As a moral matter, we must resolve the legal status of those who are here without proper documentation so that they can fully contribute their talents to our nation's economic, social and spiritual well being," the cardinal said.

The conference leader stated: "We urge President Obama and congressional leaders to meet as soon as possible to discuss and draft comprehensive immigration reform legislation, with the goal of making it law by the end of 2009."

"The Catholic bishops of our country stand ready to assist in this effort," Cardinal George concluded.
