

## **Much older scripts than the "demotic" (macedonian) script of the "Rosetta Stone", found in Macedonia**

On Mon, 11 Aug 2008 13:51:41 +1000, "Krater Makedonski" <...@optusnet.com.au

Nothing unusual, I say. Macedonians in Macedonia, Macedonians in Egypt - same literacy. :-)

Two discoveries - one at Kokino, north Macedonia, the other at Mariovo in the south of (Republic of) Macedonia, discovered many years ago, but since the deciphering of the so called "demotic" script of the "Rosetta Stone" by the two Macedonian academics Trentov and Boshevski couple of years ago as a Macedonian script, they have been found to contain the same script (lettering) as those found in the script of the "Rosetta Stone" discovered in Aleksandria in 1799.

These (stone) discoveries, according to academic Trentov cause a "positive problem" for their "Rosetta Stone" work - they are 2800 years older than the "Rosetta Stone".

For those of you who can understand Macedonian, you can listen to the explanations of academics Trentov and Boshevski in relation of these discoveries here: <http://www.youtube.com/watch?v=aF8si-BwoK8&feature=related>

Here you will watch a TV interview about the the presentations of Trentov and Boshevski at the international simposiums in Slovenia and Russia: <http://www.youtube.com/watch?v=aF8si-BwoK8&feature=related>

Here is a discussion about the claims that the Germans had deciphered the "demotic" text as a german (runic) text. [http://www.youtube.com/watch?v=t3v\\_bGM2sgI&feature=related](http://www.youtube.com/watch?v=t3v_bGM2sgI&feature=related)

For the full interview there other video clips available on youtube.

I recommend these videos to the bugaromani, especially those like Stefcho, Pavel and Sarmadzhija. I also recommend these to the grkomani - those that can understand Macedonian.
