GLOBAL DIALOGUE SUMMIT

Unity in Diversity

Our Purpose

Global Dialogue Foundation's mission is to create platforms that bring people, organisations and nations together through dialogue and action.

Using dialogue as a powerful method for negotiating solutions, the many problems that today are considered "too big" or "too complex" to handle by any one government, can actually be solved.

Dialogue not only solidifies action, it offers hope and promise for young generations to come. Global Dialogue Foundation's intention is to serve with other organisations as a model for a Citizens Assembly and complement UN systems.
